OANN Newsroom

1 SPEAKER 1: The Arizona audit underway. Similar
2 reports of election interference continue to pour in from
3 across the nation. One America's Pearson Sharpe sits down with
4 MyPillow founder and CEO Mike Lindell, who says they already
5 have enough evidence to prove our nation's voting systems were
6 tampered with.

7 PEARSON SHARP: Mike the pillow man Lindell, how you
8 doing? Thanks for coming on today.

9 MIKE LINDELL: Yeah, thanks for having me on.

10 PEARSON SHARP: Absolutely. So you were on Jimmy
11 Kimmel the other day? How was that go?

12 MIKE LINDELL: Well, it went great. I got to, I got
13 to say the word Dominion, I think, Smartmatic.

14 PEARSON SHARP: He didn't kick you off.

15 MIKE LINDELL: He didn't kick me off and actually - -

16 PEARSON SHARP: He didn't get up and walk away?

17 MIKE LINDELL: No, that's right. But no, it was
18 amazing. He let me, he asked me, you know, hard questions
19 trying, I think, you know, he expected maybe me to get upset
20 but you know - -

21 PEARSON SHARP: It seems like he was trying to push
22 your buttons.

23 MIKE LINDELL: Right. But I've been through it all,
24 you know, with the media. I do it every day, all the media,

1 they have my direct number from your New York Times to
2 Washington Post. They all have my direct numbers. And, you
3 know, when they, when there's something I need to say they
4 don't, call they don't write. So for being on Jimmy, that was
5 amazing how brave he was because they did not want me on
6 there. The bots and trolls and all the left, people on the
7 left said don't bring him on Jimmy. And everybody here goes
8 don't go on there, Mike, you know.

9 PEARSON SHARP: Well you even got a couple of claps
10 from the audience when you were saying, you know - -

11 MIKE LINDELL: Oh no, the audience was great. I
12 talked to some, a lot of them, they were all, you know,
13 they're, they're not, they were not, when I got there, it was
14 like, immediately from this producer on down it's like, they
15 might have different, be very, you know, liberal or whatever
16 you perceive, but there were even some conservatives and, but
17 they're all people, you know.

18 PEARSON SHARP: So for anyone unfamiliar, what have
19 you been working on? What have you been, what have you been
20 doing the last few months?

21 MIKE LINDELL: Ever since January 9th, when I got a
22 piece of evidence, obviously, since November 4th, I looked
23 into everything too, poured money wherever it needed to go,
24 people that were finding, you know, anything to do with fraud.

1 But on January 9th, it was different. This was a piece of
2 evidence, came off a computer. And it was a, it was a, it
3 showed, it showed this attack, just one footprint of a attack
4 by China. And I'm going, and well, it was a spyware. Well,
5 then I find out that, so then from that point on obviously I
6 went all in. I met the guys that, three, there's three
7 different individuals that were part that they, they're going
8 to be heroes when this comes out because they, they had, they
9 got all these prints from the computers. They have billions of
10 printouts. And, and so then I, since then I've been obviously
11 just fighting every day to get this, to tell the nation and
12 everybody, the world these machines where it got hacked,
13 Dominion, Smartmatic, Hart, all of them are the same, ES&S.
14 You just say Dominion, but it's all machines. China hacked
15 into our election and flipped millions upon millions of votes.
16 And we have 100% evidence so I put out the two, three movies
17 now, Absolute Proof, Scientific Proof.

18 PEARSON SHARP: Irrefutable? Is it irrefutable truth?

19 MIKE LINDELL: It's absolute, I mean, that's even
20 higher than irrefutable.

21 PEARSON SHARP: Yeah.

22 MIKE LINDELL: Okay. When you get to Absolute
23 Interference, the one I just put out, everybody's got to
24 spread that far and wide. Because what I did, I took any

1 questions, any doubt, you would have on Absolute Proof, I went
2 and got this guy, he's a, he works for the government. Okay,
3 he's a white hat hacker, one of the best in the world. Now I
4 have him and two other ones but this guy is the best, okay. He
5 spent five weeks validating just 19 attacks from China. There
6 was, there was thousands or about 2,000-some I believe that
7 night from there. And he went got the, where's the building,
8 the building, the IP address, the ID of the computer. But more
9 importantly, of course then it comes over here this is just
10 one hack, where it came in, which building, which computer,
11 which IP address. But here's the thing, he also got the stuff
12 that comes off the computer, I call it jibberish, you can't
13 read it. And he goes - -

14 PEARSON SHARP: Like the metadata.

15 MIKE LINDELL: Yeah, this is right, something you and
16 I wouldn't be able to read it but he says what these are,
17 they're cyber footprints and he validated when they did the
18 flips. So let's say it was at the exact minute, so let's say
19 it's 11:03am on November 3rd, here comes an attack. It goes
20 into this computer, we got pick a county, Fulton County,
21 whatever.

22 PEARSON SHARP: And you can see the votes flip.

23 MIKE LINDELL: And you can see, and he's got the
24 cyber flip. Now I said, I asked him, can you go back in time

1 and change that? No. This has chain of custody he called it,
2 it's very important. He said, no, it's impossible. I said, so
3 this would hold up in any court? He said this would hold up
4 anywhere. Two plus two is two.

5 PEARSON SHARP: This is something I wanted to bring
6 up, because a lot of people when you go out and you make these
7 statements, they say, oh, Mike Lindell. You know, he's just
8 making these conspiracy theories. You know, he sells pillows.
9 What does he know about this? But the important thing to know
10 is that you are not saying these things, you have people, you
11 hire teams - -

12 MIKE LINDELL: Oh, no I'm saying the things too.

13 PEARSON SHARP: Well no, you're saying them but you
14 have teams of investigators who are finding this information
15 and providing you.

16 MIKE LINDELL: Right, right. Here's why I ended up
17 with, and they even said it on Jimmy, he goes why are you a
18 pillow guy when no one else, you know - -

19 PEARSON SHARP: Exactly.

20 MIKE LINDELL: It's only because I had the biggest
21 voice in this country. That, and that's why God gave me this
22 platform. Where all the media was coming to me, especially
23 when I started doing, when bombastic things started happening
24 where the cancel culture where I'm losing, you know, I would

1 lose like three box stores a day and they'd say, they come to
2 me, Mike, you lost HEB and Kohl's and Bed Bath and Beyond
3 turned on you, what do you say about that? Did you hear about
4 Dominion and China attacking our country? So I put the voice
5 out there. What these guys were, the evidence was already
6 there, you know, but there were other people trying to get
7 this out there but they didn't have a voice.

8 PEARSON SHARP: So that brings up my next point that I
9 want to ask you. It's fair to say you're a successful
10 businessman, you have a great business, you've been selling
11 stuff all over the country. Why did you feel the need to
12 personally get involved with this? How did you feel compelled
13 to get involved with this election? Why you?

14 MIKE LINDELL: I would hope anybody, well first of
15 all, when you talk about November 4th, you know, the day
16 after, obviously, I seen deviations. I look at, the one thing
17 I do I'm an expert at is deviations. I look at numbers all day
18 long, they don't lie. If I have a radio station that normally
19 does 3,000 and it does 15,000, you had to have a different
20 input to change that output. So there were all these
21 deviations and so I dove in there, mostly with just resources
22 and, and, and also with myself looking, my own investigation
23 going county by county, going this is mathematically
24 impossible.

1 PEARSON SHARP: You saw something suspicious, and you
2 wanted to investigate it.

3 MIKE LINDELL: Suspicious wasn't even the word. There
4 was thousands of deviations, you could look, I could pick out
5 a county and going, in Wisconsin twas speaking, look at the
6 track record, look what happened. It's impossible because the
7 same people lived in the county before. Now, what happened was
8 though, all these people after, after January 9th, when I went
9 public with that, that piece that these guys had gotten me,
10 that piece of Dominion, Dominion, you know, the cyber attack.
11 When I did that, then these guys trusted me, the guys there,
12 these guys are whistleblowers. These guys are, you know, that
13 work inside the government and used to work for the
14 government. These are the guys that have all this information
15 and so they had this. They can't just go out there, they're in
16 danger, but they trusted me so they brought it to me. I'm not
17 a computer geek, I don't know anything about it, I don't know
18 this from this. But I do know, I do know deviations. And I do
19 know that this was the answer. Now I seen it, so I even
20 validated it by the people that work, that protect our
21 country.

22 PEARSON SHARP: Okay.

23 MIKE LINDELL: These people protect our country when
24 there's a cyber attack. So I got the best in the world to

1 validate it.

2 PEARSON SHARP: The big question that we all want to
3 know, was the 2020 election stolen?

4 MIKE LINDELL: Well, I think everybody already knows
5 that. I mean, of course it was stolen. Donald Trump won just
6 shy of 80 million to 66 million for Biden and that doesn't
7 count the organic theft that was on the ground. Donald Trump
8 won, now get, everyone hear this, 80 million to 66 million.
9 Mike, come on, you know, that's just because you like Donald
10 Trump, the President. No, if then, I'm just telling you the
11 truth, what do you want me to minimize it and say that, you
12 know, Donald Trump won, but it was close. It was the biggest
13 landslide ever. I mean, for this, just a complete landslide,
14 highest, highest black vote ever for someone, for you know,
15 that he had, that these were, and mail-in votes, even the
16 mail-in votes everybody. Everyone goes, you know, those
17 mail-in votes in Michigan, when everything stopped in the
18 middle of the night, they go wow, the 106,000 votes came in
19 for Biden with no down ticket. Let me tell you, those were
20 mail-in votes, they were counting, mail-in votes were counted
21 on the morning of the 3rd. They were the first thing counted
22 everybody, except for Pennsylvania, which they had to take a
23 whole week to cheat over there. But and then you had, you
24 know, like Arizona took one week to count 1%, that's all gonna

1 be found out now when they open up Maricopa County, they
2 finished that audit, you guys are gonna see a hundred and some
3 thousand votes flipped. This was a crime of biblical
4 proportions. I mean, it's historical proportions. What I want
5 everyone to know and I said it on Jimmy, they said, well what
6 if it was on the other foot? You know, what if it had Donald
7 Trump, you know, and I said, you know what, I would do the
8 same thing. Here's why, when you ask what's compelling me to
9 do this, if they would have done their jobs, everybody, and
10 put Donald Trump in on December 14th, and said, yes, we found
11 this, this [inaudible], you know that dead people voted, all
12 these other vote and things they were talking about that
13 nobody looked at, nobody looked at that either. Not one judge
14 in his country, it was a joke. So, but if they do that, if
15 they do their job, and the legislatures who adopt, Donald
16 Trump wins. So if I'm given the same evidence on January 9th,
17 you don't think that I would say, of course, I would be
18 telling the world.

19 PEARSON SHARP: So if, if President Trump had won the
20 election, but you saw the same evidence that showed that Biden
21 had actually won, you would be doing the same thing you are
22 now.

23 MIKE LINDELL: Yes, because this is China attacked
24 our country. This is, it doesn't matter. You have to right the

1 2020 election, but I'm telling you, everyone, we could never
2 have machines again in history, the whole world is watching.
3 If I knew now what I, you know, right now what I have, I could
4 not keep this, but only person, or to have all this stuff, at
5 one person it was me and four guys that trusted me. Then it
6 expanded from there as I got more people, more investigators,
7 put a lot of resources into hiring the best in the world to,
8 is this real, is this true? And they're all going, yes, it's
9 true. Now everyone says, well, why didn't you bring it to the,
10 to the, the FBI, to the government. You know what, I trust,
11 right now I trust bringing it all to the people first. So
12 everyone in this country, whether you're a Democrat or
13 Republican, you see all the evidence, and you go guilty, China
14 attacked our country. When we have all that because what are
15 we up against? We're up against this Twilight Zone thing where
16 like the Supreme Court wouldn't look at stuff and judges
17 wouldn't look at stuff. Well, what I want to do, you dump this
18 evidence, we're going to dump it over the next three, four or
19 five weeks. And we're going to do this evidence dump just like
20 I did in Absolute Interference. The guy was actually on there
21 telling about what he found. Okay. This is the stuff of all
22 the Supreme Court there, by the time it gets there then,
23 they're going to go, wow, we're under pressure from the, to
24 save the United States. And they're going to accept it. Well

1 when they look at it, it's going to be 9-0, boom, it's pulled
2 down. And there's also two other paths too where this election
3 gets pulled down. There's three of them, the first ones, the
4 quo warranto, that we're bringing to the Supreme Court. That's
5 what I've been working on every day to bring that there. The
6 other part, you start bringing you, Arizona - -

7 PEARSON SHARP: That's what I wanted to ask you about.
8 Like with everything going on in Arizona, what do you see
9 happening there? How is this gonna turn out?

10 MIKE LINDELL: Well, as soon as Arizona, as soon as
11 the audit's done, there's gonna be a hundred and some thousand
12 votes just in that county that got flipped, the whole state of
13 Arizona, Donald Trump won by over a half a million votes,
14 that's all gonna come out, they're gonna go, whoa.

15 PEARSON SHARP: Now even saying that, we're not doing
16 this so that we can overturn the election, we're doing this,
17 you know, for cybersecurity efforts and stuff like that. If it
18 turns out that Trump did win these votes, we know we're not
19 going to do anything. What do you think about that?

20 MIKE LINDELL: Who says that?

21 PEARSON SHARP: The Maricopa County people the - -

22 MIKE LINDELL: Oh is that what they say. Well I don't
23 know what they're doing, but I know what I'm doing.

24 PEARSON SHARP: They're just doing it for election

1 integrity. They say they're not out to change the outcome of
2 the election, is what they said.

3 MIKE LINDELL: Well, you, there's twofold there, then
4 what are they doing it for? They're doing it because they hold
5 Dominion accountable. If they had nothing to hide this whole
6 time, then why were they hiding it from people?

7 PEARSON SHARP: Exactly. Exactly.

8 MIKE LINDELL: You know, if you find something that,
9 and let me be very clear, there's no statute of limitations on
10 a crime of this magnitude or any crime like this. Do you know
11 that there's a precedence for many down-tickets, many
12 down-tickets when they find out the real winner was this
13 person they flip it over. And this is that, that's just the
14 one pathway of those states, just because there's dates, do
15 you think because there was a date that went by on December
16 14, January 6, January 20th. Just because those date passed,
17 and then you find out that this was criminally done by another
18 country, no less too - -

19 PEARSON SHARP: Several countries.

20 MIKE LINDELL: You know, but, well, the main one was
21 China. And you know, you can have servers in other countries
22 too, that did this. But, but the main one was China - -

23 PEARSON SHARP: Germany, Pakistan, Italy.

24 MIKE LINDELL: The main one was China, the attacks

1 would come from everywhere. We, I approve 19 attacks directly
2 from China, flip five states, including Arizona. So that's all
3 I need is just those 19.

4 PEARSON SHARP: I just wanted to mention for anyone
5 who does want to help out in Arizona, that there is a
6 fundraiser right now to help pay for everything. And you can,
7 you can find it on the website you see on your screen right
8 now. You can go and donate and it'll help the, help pay for
9 the venue, help pay for the people working there. Because the
10 Democrats are trying to shut that down right now.

11 MIKE LINDELL: Right. You guys, I can't tell you
12 this, you have to donate to this. There is no other time in
13 the world. This is, I've never asked for any money myself for
14 any of the stuff I put in, I've just been doing it, I've never
15 done, and I put it, ask for any money. And but I do get behind
16 good causes like right now that you're putting up that fund.
17 That fund is so important, I can tell you. 100% of that money
18 is going, that could be, could be this that state, that state
19 is a domino. Once that falls, they all are going to fall like
20 dominos. That's another path to [inaudible] down that
21 election. It's important in more ways than you could ever
22 imagine. Because when they do that audit there, they're gonna,
23 it's gonna show that what went on with these machines, being,
24 being a part of this cyber attack, right, by China. But those

1 machines, you know, there's two things, we're going to get the
2 2020 election fixed. But we also need to get rid of the
3 machines, all of them, forever, around the world. Never ever a
4 machine ever. You can never have an election ever with a
5 machine. So that whole industry goes bye-bye. It's, you know,
6 let me tell you in Arizona too, and by the way, put money into
7 that fund. These guys need it. I just got, it was a, it was,
8 you know, they are short money and we cannot have, we've come
9 this far to be short, you know. And but in Arizona, it's
10 interesting, we were, we're doing a recall on Doug Ducey,
11 sorry, Doug, lose my number. And so this recall on Doug Ducey,
12 we, interesting enough, when you do a recall it's a certain
13 size piece of paper. Every, every signature has to be
14 validated, ID and validated by another, by, I think a notary
15 even. I mean, it's very, it's a very, it's quite a process but
16 it's all hand done. And every vote is hand-counted, there's no
17 machines involved. What a concept. Wow. I mean, you have
18 there, it's more strict doing that, than this just fly by
19 night using machines where, you know, a 10 year old could hack
20 these machines.

21 PEARSON SHARP: Right, exactly.

22 MIKE LINDELL: They really could. I mean, it's so
23 simple. If you know anything about - -

24 PEARSON SHARP: Well they have these hacking

1 conferences where people go in and they said they can do it in
2 under seven minutes - -

3 MIKE LINDELL: They hacked them all. You know, you
4 did a great piece on that. And they, but this is, I can't
5 stress how important Arizona is, for all things, even to
6 strengthen the quo warranto that we're doing with the Supreme
7 Court. You have, you compile all that, I believe they're all,
8 these, these three tracks are going to all intersect and that
9 Supreme Court gets there, 9-0, let's do something. I'm waiting
10 for them to call and say, hey, we want to do something right
11 now, America. What they should do is all nine of them walk out
12 there and bring us what you got, protect our country, because
13 every day that goes by, whatever's in office right now is
14 destroying it. I saw a sad picture of the wall, where the wall
15 ended and they, and the guy said, you know what, they got
16 reporters down there, he goes, this just in and the wall, this
17 will end America.

18 PEARSON SHARP: So last question, and this is the
19 really big one. With all the evidence you've seen and if
20 Arizona flips and everything else, will the election be
21 overturned? Will President Trump be put back in office?

22 MIKE LINDELL: Yeah, by August. I've said that
23 before. Donald Trump will be back in power in August. We will,
24 and he will - -

1 PEARSON SHARP: You're certain?

2 MIKE LINDELL: Yes, that's me, that's, now that's me.
3 Now do I have to back that up? That's, that's subjective.
4 That's what, you know, having me on, that's my opinion. But
5 it's opinion based on a lot of things that when I believe this
6 election is going to be pulled.

7 PEARSON SHARP: Why August?

8 MIKE LINDELL: The reason I say August is because of
9 the timeline here. We're already into April. And I know by,
10 you know, you get through May, I know that this, the Supreme
11 Court should probably get our case somewhere around the end of
12 May, maybe early June. So you have all of June, but there's
13 going to be so much pressure on them to look at it fast
14 because you're getting, this country's getting damaged each
15 and every day. Every day that goes by some nonsensical thing
16 gets done by this administration. 50,000 union jobs on the
17 first day of the inauguration, 13 of them have committed
18 suicide. You guys, if things are going on out there that don't
19 make common sense and don't help you, I don't care if you're a
20 Democrat or Republican, if it doesn't help the people, that
21 means politicians, somebody is making the decision for a
22 political reason, or a personal reason, or maybe an attack by
23 China. Hello, you know, you know, if you're, if you're in this
24 country, and you went to college in the last few decades,

1 you've been so brainwashed that socialism is having a cup of
2 coffee and socializing.

3 PEARSON SHARP: Oh, China's great, they're wonderful.

4 MIKE LINDELL: Well, now they're, yeah, well, they're
5 all now noticing. Even, even them. I've talked to them people
6 that went to college that were strong Democrats, liberals,
7 lefts, and they're going, I said, is this what you, you know,
8 is this what, where do you think this is benefiting, this wall
9 ending here, when everything was working. And now we have
10 human traffickers coming over - -

11 PEARSON SHARP: Bringing drugs.

12 MIKE LINDELL: We have drugs pouring in again. All
13 these things - -

14 PEARSON SHARP: From China.

15 MIKE LINDELL: And yes, and then here, these guy, and
16 the guy goes, I said, yeah, you know, I said, they go do you
17 see now how socialism is bad? And they go, yeah, we're kind of
18 seeing this isn't, you know, it doesn't make sense. I said, if
19 it doesn't make sense, guess what? That socialism skipped
20 right over China, it leads to communism, but it skipped over,
21 communism is here. The first thing they do is take away your
22 voice. That's what they do, everybody, they've been
23 suppressing - -

24 PEARSON SHARP: Well they're doing that everywhere.

1 All over the country.

2 MIKE LINDELL: Everywhere, your churches speak out
3 for Jesus - -

4 PEARSON SHARP: You would know.

5 MIKE LINDELL: Yes, I would know. You know, right now
6 you can talk about borders, machines, vaccines, Jesus. I mean,
7 you talk about, I've talked to churches, they're getting
8 suppressed with YouTube and Vimeo, this is what they're doing.
9 Shh shh. It'll be pretty soon you won't be able to talk,
10 there'll be, there won't even be bad journalists anymore,
11 because they will, and I'll give an example of that. I, they,
12 about three weeks ago, I was on a network and I said the
13 vaccine was the mark of the beast. And I said that and it
14 went, you know, it started to go viral, just two outlets
15 grabbed it. And you know what? Somebody, big brother, shut it
16 down. They did not want me even saying that. Now in a normal
17 environment, they would mock me and go, Mike Lindell believes
18 the Bible, you know that, you know, mark of the beast.
19 Instead, they just killed it. So they do two things, they
20 either kill a story, kill your voice, or they'll try and say
21 that you're a liar, you know, and a conspiracy theory, right?
22 Those are their two narratives. But it's all over, it's not
23 just social media.

24 PEARSON SHARP: Yep. It is, absolutely.

1 MIKE LINDELL: It's all over the mainstream media and
2 it's horrible. You got One America News that's, you guys are
3 like the, the only ones, it should be the only One America
4 News.

5 PEARSON SHARP: Alright, I think that's, we're out of
6 time here but thank you very much, Mike. I appreciate you
7 coming on.

8 MIKE LINDELL: Well thanks for having me on.
